

Mandelic Acid Blemish Kit

Formulated to dramatically improve blemished and/or blotchy skin. Used by physicians as an internal antibacterial for years, it is now available externally to clear the blotchiness and encourage clear skin.

Kit Instructions

Morning Regimen

- 1 Cleanse:** Wash your face thoroughly with BP Cleanser 3% for at least one minute, using your hands (not sponges or wash cloths).
- 2 Tone:** Pour Normalizing Tonic onto cotton and lightly cleanse affected areas. Allow to fully dry before next step.
- 3 Rejuvenate:** Apply Mandelic Acid Serum on the desired area after cleansing and toning the face.
- 4 Protect & Moisturize:** Use Day Treatment Lotion with SPF-15. If skin becomes too dry or anticipate exposure to the sun, apply a small amount. Makes an excellent makeup base.

Evening Regimen

- 1 Cleanse:** Wash your face thoroughly with BP Cleanser 3% for at least one minute, using your hands (not sponges or wash cloths).
- 2 Tone:** Pour Normalizing Tonic onto cotton and lightly cleanse affected areas. Allow to fully dry before next step.
- 3 Rejuvenate:** Apply Mandelic Acid Serum on the desired area after cleansing and toning the face. For a more aggressive regimen, apply twice daily; once in the AM and again in the PM.

This incredibly formulated serum allows individuals with blotchy complexion and/or acne to rediscover their radiant complexion. Used by physicians as an internal antibacterial for years, it is now available externally to relieve blemished, blotchy skin.

Mandelic Acid, with its larger carbon molecule, is not as irritating to the skin as lactic acid or glycolic acid. The antibacterial effects of this product are useful to reduce the bacteria (*Corynebacterium acne*) of the skin and can be used in conjunction with any of the Vivant Skin Care complexion programs or individually. Blotchy, Mediterranean skin type III or IV complexions will benefit the greatest from this new and exciting serum.

Mandelic Acid Serum & Vitamin A Combination Instructions:

Mandelic Acid Serum can be used in combination with any Vitamin A product. However, products must be use at separate times. For example, use the Mandelic Acid Serum during your AM regimen and the Vitamin A product during your PM regimen.

In addition, Mandelic Acid Serum can be applied in conjunction with the Spin Trap Vitamin C+E Serum. Apply the Mandelic Acid Serum, let dry for approximately 5 minutes and then apply the Spin Trap Vitamin C+E Serum. This can be used during your AM or PM regimen.
